

Everyone Deserves to Communicate

Dial 711

Delaware Relay provides a public service that enables people with hearing or speech loss who use a teletypewriter (TTY) or other assistive devices to communicate with standard telephone users, relayed by a relay operator.

This relay service is available in Spanish

Speech-to-Speech (STS)

STS provides services that allow a caller who has a speech disability to communicate with anyone at any time on the phone. A relay operator repeats their words as needed for clarity.

Relay Conference Captioning (RCC)

RCC enables people who are deaf or hard of hearing to actively participate in conference calls, video meetings and webinars. With RCC, they can read live captions via a web browser on their laptop, tablet or mobile device.

Outreach Program & Webinar Training

Outreach specialists are available to host Delaware Relay exhibits and booths at local and statewide events, including conferences, expos, workshops, and town hall meetings. We also give in-person presentations, demonstrations, and one-on-one trainings at no cost.

Webinars are also offered to people with hearing loss, agencies working with people who have disabilities, or advocates to learn about telecommunications services including STS and RCC.
