

Everyone Deserves to Communicate

Delaware Relay

You can use a text telephone/teletypewriter (TTY) to communicate with anyone and anytime on the phone! The relay operator reads aloud the message you typed to the other party and types the other party's voiced message and background sounds, if any, to you. This service is designed for people who are Deaf, Hard of Hearing or have a Speech Disability.

This relay service is available in English-to-English and Spanish-to-Spanish.

Speech-to-Speech (STS)

This service is designed for people who have a Speech Disability or those who use an assistive voice device. With Speech-to-Speech (STS), you can call anyone on the phone. A relay operator ensures that you will be heard and understood. No special equipment is needed!

This relay service is available in English-to-English and Spanish-to-Spanish.

Relay Conference Captioning (RCC)

Relay Conference Captioning (RCC) service enables you to actively participate in conference calls, video meetings and webinars. With RCC, you can read live captions via a web browser on your computer, laptop, tablet or mobile device. You have the option of either speaking or typing to communicate with the other attendees. This service is designed for people who are Deaf, Hard of Hearing or those with a Speech Disability.

This captioning service is available in English.

Outreach Program & Webinar

Our Outreach Specialists are available to host Delaware Relay exhibits and booths at local and statewide events, including conferences, expos, fairs, workshops and town hall meetings. We also give complimentary presentations, demonstrations and one-on-one trainings.

Join one of our webinars to learn about Delaware Relay service. The webinars are accessible with sign language, English interpretation and live captions.
