

**Making phone communication
easier for people who are Deaf,
Hard of Hearing, DeafBlind or
those with a Speech Disability**

Welcome!

Delaware Relay is a **no-cost** service that enables people who are Deaf, Hard of Hearing, DeafBlind or those with a Speech Disability to place and receive phone calls.

Relay calls can be made to anyone, anywhere in the world, 24 hours a day, 7 days a week, except where noted. Relay operators and captioners are specially trained to facilitate the calls. All calls are completely confidential.

Explore the services in this handy booklet to determine which one best meets your needs!

Visit **delawarerelay.com** for additional information and educational videos.

■ Voicemail/Answering Machine Message Retrieval Service	9
■ International Relay Service	9
■ 911 Emergency Info	9
■ Customer Profile	10
■ Outreach Program	11
■ Webinars	11

Standard Phone Users

711 or 800-232-5470 for English
877-335-7595 for Spanish

Yes, you, as a standard phone user, can easily call individuals who are Deaf, Hard of Hearing, DeafBlind or those with a Speech Disability! No special equipment is needed!

It's wise to ask the person how they would like to be reached over the phone.

If the answer is **Delaware Relay**, then dial 711 (or 800-232-5470 for English or 877-335-7595 for Spanish) to reach a relay operator. Provide the area code and telephone number of the person you wish to call. The relay operator will dial the number and connect you to them.

If the answer is **IP Relay**, then simply dial the person's IP Relay phone number. You will be automatically connected with a relay operator who will then connect you to the IP Relay user.

If needed, the relay operator will explain the process before connecting the call.

Don't Hang Up

When you answer your phone and hear, "Hello, this is Delaware Relay...", please don't hang up! You are about to talk, through a relay operator, with a person who is Deaf, Hard of Hearing, DeafBlind or has a Speech Disability.

This relay service is available in English and Spanish.

Text Telephone/Teletypewriter (TTY) Relay Service

711 or 800-232-5460 for English
877-335-7595 for Spanish

You can use a text telephone/teletypewriter (TTY) to communicate with anyone and anytime on the phone! The relay operator reads aloud the message you typed to the other party and types the other party's voiced message and background sounds, if any, to you.

This service is designed for people who are Deaf, Hard or Hearing or have a Speech Disability.

How Does TTY Relay Work?

It's simple!

Just dial 711 (or 800-232-5460 for English or 877-335-7595 for Spanish) on your TTY and a relay operator will answer with "Delaware Relay".

Type the area code and telephone number you wish to call and type "GA" ("Go Ahead"). The relay operator will dial the number and connect you to the other party.

- 1 Type your message on the TTY. Type "GA" ("Go Ahead") at end of each message. The "GA" indicates that it is the other party's turn to respond.
- 2 The relay operator reads aloud the message you typed to the other party.
- 3 The other party listens, then speaks. When they say, "Go Ahead", it is your turn to respond.
- 4 The relay operator types the other party's voiced message to you.

To conclude the call, type "GA to SK" ("Stop Keying") to indicate that you are ready to hang up.

This relay service is available in English and Spanish.

For additional information, visit delawarerelay.com/text-telephone.

For information about a similar Internet-based relay service called IP Relay, go to page 3.

TTY Relay Support Service

English: 800-676-3777

Spanish: 800-676-4290

Email: access@t-mobile.com

IP Relay Service

You can use IP Relay service on a smartphone, tablet or laptop to make and receive phone calls anywhere there's an Internet access! The relay operator reads aloud the message you typed to the other party and types the other party's voices message and background sounds, if any, to you.

This service is designed for people who are Deaf, Hard of Hearing, DeafBlind or have a Speech Disability.

How Does IP Relay Work?

It's easy to use!

First, register to use the IP Relay by either downloading the **T-Mobile IP Relay app** on your smartphone or going to **tmobileip.com** on your tablet or laptop. You will be prompted to create your username and password, save them.

When you're ready to make a call via IP Relay, sign in with your username and password. Type the area code and telephone number you wish to call. The relay operator will dial the number and connect you to the other party.

To conclude the call, type "GA to SK" ("Stop Keying") to indicate that you are ready to disconnect.

This service is available in English and Spanish.

For more information, visit **tmobileaccess.com/resources/ip-relay**.

The T-Mobile IP Relay works with braille displays and screen readers. Visit **tmobileaccess.com/braille** for instructions on using a braille display with the IP Relay app.

Voice Carry-Over (VCO)

711 or 877-335-7590 for English
877-335-7595 for Spanish

Voice Carry-Over (VCO) is the perfect solution for you if you like to talk and read captions during your phone calls. When the other party speaks to you, the relay operator serves as your “ears” and types all the words that are spoken and background sounds, if any, on your VCO phone or text telephone/teletypewriter (TTY). Then you speak directly back to the other party. This service is designed for the people who are Deaf or Hard of Hearing.

How Does VCO Relay Work?

It's a snap!

Just dial 711 (or 877-335-7590 for English or 877-335-7595 for Spanish) on your VCO phone or text telephone/teletypewriter (TTY). The relay operator will answer with “Delaware Relay”.

Provide the area code and telephone number you wish to call and say “Go Ahead”. The relay operator will dial the number and connect you to the other party.

- 1** You speak to the other party. Say “Go Ahead” (“GA”) at end of each message. The “GA” indicates that it is the other party's turn to respond.
- 2** The other party listens and speaks. The other party says “Go Ahead” (“GA”) to indicate that it is your turn to respond.
- 3** The relay operator types the other party's voiced message to you.
- 4** You read the other party's voiced words on your VCO phone or text telephone/teletypewriter (TTY).

To conclude the call, just say “goodbye”.

This relay service is available in English and Spanish.

For additional information, visit delawarerelay.com/vco.

TeleBraille Relay

711 or 800-232-5460 for English
877-335-7595 for Spanish

You can use a TeleBraille device or TTY with a large visual display to make relay calls. This service allows you to read the phone conversation in braille or in a large font size at a 15 WPM transmission speed. If desired, you may specify a different WPM transmission speed to the relay operator.

The relay operator reads aloud the message you typed to the other party, and then types what the other party says to you. This service is designed for people who are DeafBlind or Deaf with Low Vision.

How Does TeleBraille Relay Work?

It's simple!

Dial 711 (or 800-232-5460 for English or 877-335-7595 for Spanish) on your TeleBraille device or TTY with large visual display and the relay operator will answer with "Delaware Relay".

Type the area code and telephone number you wish to call and type "GA" ("Go Ahead"). The relay operator will dial the number and connect to the other party.

- 1** The other party listens and speaks. They say "GA" ("Go Ahead") to indicate that it is your turn to respond.
- 2** The relay operator conveys the other party's voiced message by typing it to you.
- 3** You read the other party's voiced message on your device, and then type your response, which the relay operator reads aloud. Type "GA" ("Go Ahead") at end of each message. The "GA" indicates that it is the other party's turn to respond.

To conclude the call, type "GA to SK" ("Stop Keying") to indicate that you are ready to hang up.

This relay service is available in English and Spanish.

Hearing Carry-Over (HCO)

711 or 800-232-5460 for English
877-335-7595 for Spanish

Hearing Carry-Over (HCO) is the ideal solution for you if you want to listen and type on your phone calls. You type on your text telephone/teletypewriter (TTY) or VCO/HCO phone and the relay operator reads your words aloud to the other party. This service is designed for people with Speech Disabilities.

How Does HCO Relay Work?

It's a cinch!

Just dial 711 (or 800-232-5460 for English or 877-335-7595 for Spanish) on your text telephone/teletypewriter (TTY) or VCO/HCO phone and the relay operator will answer with "Delaware Relay".

Type the area code and telephone number you wish to call and type "GA" ("Go Ahead"). The relay operator will dial the number and connect to the other party.

- 1 Type your message on your TTY or VCO/HCO phone to the relay operator. Type "GA" ("Go Ahead") at end of each message. The "GA" indicates that it is the other party's turn to respond.
- 2 The relay operator reads your typed message aloud to the other party.
- 3 The other party listens and speaks directly to you. The other party says "Go Ahead" to indicate that it is your turn to respond.

To conclude the call, type "GA to SK" ("Stop Keying") to indicate that you are ready to hang up.

This relay service is available in English and Spanish.

Speech-to-Speech (STS)

711 or 877-335-7274 for English and Spanish

This service is designed for people who have a Speech Disability or those who use an assistive voice device.

With Speech-to-Speech (STS), you can call anyone on the phone. A relay operator ensures that you will be heard and understood. No special equipment is needed!

How Does STS Work?

It's straightforward!

Just dial 711 (or 877-335-7274) and ask for a Speech-to-Speech relay operator.

Provide the area code and telephone number of the person you wish to call. The relay operator will dial the number and connect you to the other party.

- 1** You speak on your phone directly to the other party.
- 2** The relay operator repeats your spoken words to the other party as needed for clarity.
- 3** The other party talks directly to you.

This relay service is available in English and Spanish.

For additional information, visit delawarerelay.com/sts.

Relay Conference Captioning (RCC)

Relay Conference Captioning (RCC) service enables you to actively participate in video meeting, conference call or webinar. With RCC, you can read live captions via a web browser on your computer, laptop, tablet or mobile device. You have the option of either speaking or typing to communicate with the other attendees. This service is designed for people who are Deaf, Hard of Hearing or those with a Speech Disability.

How Does RCC Work?

It's easy to use!

Simply complete an online RCC reservation form at least 2 business days in advance. You will then receive an RCC confirmation email. Approximately 10 minutes prior to the event (video meeting, conference call or webinar), click on the link in the confirmation email and the RCC website will automatically open via a web browser.

- 1** The captioner listens and transcribes the event.
- 2** You read the captions on a computer, laptop, tablet or mobile device.
- 3** To add your comments/questions, you either
 - a** speak directly to the other attendees via the audio bridge, or
 - b** type in the "Message to Captioner" text box and the captioner then reads aloud your comments/questions.

This captioning service is available in English.

For additional information about RCC and to reserve RCC, visit delawarerelay.com/rcc.

RCC Support Service

Voicemail/Answering Machine Message Retrieval Service

711 or any Delaware Relay toll-free number

Voicemail Retrieval: When you request the relay operator to retrieve messages from a voicemail system, the relay operator will follow your instructions for dialing, pin entry, access codes, and/or system commands to retrieve new messages, play messages, save, and/or delete messages.

Answering Machine Retrieval (AMR): When a you request the relay operator to retrieve messages from an answering machine at your location, simply type "AMR GA" then follow the instructions from the relay operator.

International Relay Service

You can make international calls through Delaware Relay by dialing 711 or any Delaware Relay toll-free relay number.

People outside the US wanting to call you should dial 605-224-1837 to reach a relay operator.

International Relay service is available in English and Spanish.

911 Emergency Information

In the event of an emergency, dial 911 **directly** using any phone, including a TTY.

You may use any of the relay services to call 911, but that will not be as fast as dialing 911 directly.

Be prepared to provide your full name, description of emergency and location.

Customer Profile

The Customer Profile allows you to store your call preferences, such as:

- Frequently dialed numbers
- Emergency numbers
- Preferred gender of Relay Operator
- Preferred announcement relay service
- Speech-to-Speech (STS) Call Setup

Customer Profiles help speed up the call processing.

To create a Customer Profile, visit delawarerelay.com/profile.
